

## Cochran Training Pass

Come train on the same hill that has produced the most successful ski racing family in US Skiing history!!

The Cochran Family took the ski racing world by storm in the 60's and 70's, with all four siblings on the US and Olympic Ski team. The next generation of Cochran's (known as the "Cochran Cousins") have continued the family tradition with 6 new members of our US Ski Team! ... ..One of their secrets is running gates after gates after gates.....we guarantee that one night of training at Cochran's (if you are in good enough shape to handle it!!) will give you more training than you would receive in a week at most programs!

Pictured above "Cochran Cousin" Tim Kelley, current NCAA slalom champion, former USST racer

Now for \$300 for the entire season (Jan 9<sup>th</sup> through March 15<sup>th</sup>). You will be given the opportunity to train two nights a week on the same training hill that has produced some of the world's best ski racers! Cochran Ski Area will provide you with a training lane and race course for 2 hours each night! All you have to do is show up and run gates after gates after gates!!!

Training will be available every Friday night from 6:00 to 8:00 PM...the 2<sup>nd</sup> training night will most likely be Wednesday night from 5:30 to 7:30...but this will be finalized in mid January.

Training spots will be limited to a maximum of 30 racers...so don't hesitate...sign up now!!
